

JOINT ADVISORY

MR No.: 087/21

Updated as of 10 November 2021

Updated Safe Management Measures at Food & Beverage Establishments

1. This joint advisory provides updates on Safe Management Measures (SMMs) for Food and Beverage (F&B) Establishments, which will take effect from 10 November 2021.

Easing of Dine-In Restrictions for Households

2. Up to 5 fully vaccinated persons from the same household, will be allowed to dine-in together at F&B establishments. This currently excludes dine-in at hawker centres and coffee shops¹. The dine-in group size for those who qualify for Vaccination-Differentiated SMMs (VDS) but are not from the same household will remain capped at 2.
3. F&B establishments should conduct checks for proof of residence for groups of more than 2. These can be done through NRIC or Singpass app. Children without these forms of identification can be allowed entry based on a declaration of their place of residence.
4. Strict enforcement actions will be taken against anyone who pretends to be from the same household as well as F&B establishments that do not implement the necessary checks. Errant individuals will be fined, and F&B establishments will be subject to immediate closures. These penalties will apply even for first-time offenders.

Easing of Music Restrictions

5. Recorded music may be played in F&B establishments. Live music and entertainment² remain disallowed. Emphatic toasting with food or drinks by workers and customers is also disallowed.

Concession for Medically Ineligible Individuals

6. From 1 December 2021, individuals who are medically ineligible for all COVID-19 vaccines under the National Vaccination Programme (NVP) will be able to enter all premises or

¹ Coffee shops refer generally to F&B establishments with SFA coffee shop/ eating house/ canteen license that are not substantially enclosed by a permanent barrier.

² Radio broadcasts, live performance, exhibition or display of gymnastics or acrobatics, lecture, talk or address, all forms of film/video/TV screenings, and the provision or allowance of other forms of public entertainment activities such as live music, dancing, variety acts and singing (by workers or customers, including birthday songs), amusement devices, darts, billiards, pool, snooker, karaoke, gambling and/or gaming instruments (e.g. dice, mahjong tiles, playing cards) in F&B premises are not permitted.

participate in activities where VDS is required³. These include entry into shopping malls and dining in at F&B establishments etc. They will need to present a hard copy memo⁴ issued by a General Practitioner (GP) clinic, public or private healthcare institution, along with a government-issued photo identification card for entry into these premises. More details on the criteria for medical ineligibility can be found [here](#).

7. While we have extended a concession to those who are medically ineligible to be able to dine in at F&B establishments, enter malls and participate in the activities where VDS is required, they remain unvaccinated and their risk of becoming infected with COVID-19 and/or becoming severely ill remains high. We strongly encourage these individuals to minimise such activities and to use this concession judiciously.

Others

8. F&B establishments must also adhere to prevailing SMMs (see Annex). Firm action will be taken against any breaches. Under the COVID-19 (Temporary Measures) Act, first-time offenders will face a fine of up to S\$10,000, imprisonment of up to six months, or both. Subsequent offences may face a fine of up to S\$20,000, imprisonment of up to twelve months, or both. Businesses that do not comply with the government's requirements on SMMs may also be ineligible for government grants, loans, tax rebates and other assistance, and may also be subject to temporary closures.

Issued by:

Enterprise Singapore
Housing & Development Board
Singapore Food Agency
Singapore Tourism Board
Urban Redevelopment Authority

³ Settings with VDS include dine-in at F&B establishments, hawker centres and coffee shops, mask-off personal care services such as facials and saunas and high-intensity/mask-off sports/ exercise activities and classes.

⁴ To be certified as medically ineligible, individuals may, from 15 November 2021, visit a doctor familiar with their medical condition, or alternatively, any clinic or hospital to obtain a hardcopy doctor-certified memo.

Other Safe Management Measures (SMMs) for all F&B Establishments⁵

Customer-facing operations/Front-of-house

Vaccination-Differentiated Safe Management Measures (VDS)

1. VDS continues to apply to all F&B establishments that provide dine-in services. Customers can only dine in if they meet any of the following criteria:
 - 1.1. Are fully vaccinated⁶;
 - 1.2. Have recovered from COVID-19;
 - 1.3. Have a valid negative PET result for the duration of his/her dine-in⁷; or
 - 1.4. If there are 2 or more children aged 12 years and below⁸ in the group, the children must be from the same household.
2. From 1 December 2021, concessions will be made for those who are medically ineligible for all COVID-19 vaccines under the National Vaccination Programme.
3. F&B establishments (including those in malls) must verify the vaccination status of customers.
 - 3.1. The SafeEntry (Business) App can be used with both the TraceTogether App and Token for this purpose.
 - 3.2. The SafeEntry Gateway Box cannot be used for VDS checks.
 - 3.3. Please refer to [this](#) for the VDS requirements and list of acceptable documents for eligibility checks.
4. F&B establishments have the right to deny entry for customers who do not meet the VDS requirements.

Sale and consumption of alcohol

5. Sale and consumption of alcohol in all F&B establishments is prohibited after 2230hrs⁹. This includes consumption at any outdoor refreshment area and/or tables/chairs¹⁰ owned or managed by such establishments. As a best practice, F&B operators should cease the sale of alcohol as a dine-in service by 2200hrs, and ensure that customers finish consuming their alcohol by 2230hrs.

Table and seating management

6. At least one-metre distance must be maintained between dining groups. This is the distance between the backs of chairs, or the legs of chairs if there is no back, between

⁵ To be implemented together with 'Updated SMMs at F&B establishments'.

⁶ This means they must have received the appropriate regimen of [World Health Organisation Emergency Use Listing](#) (WHO EUL) vaccines. For more information, refer to [MOH's information sheet on the requirements for VDS](#).

⁷ Unvaccinated individuals aged 13 or above must have a valid negative ART or PCR result from an MOH-approved COVID-19 test provider within the last 24 hours. Refer to <https://go.gov.sg/swabproviders> for the list of MOH-approved COVID-19 test providers. Self-administered ART supervised by employer and self-administered ART results are not recognised for VDS.

⁸ If a group comprises up to 5 such children, all the children must be from the same household. F&B establishments are to ensure that there is no mixing or mingling between different groups.

⁹ This includes consumption by all individuals (such as customers, staff and vendors) within the F&B establishment.

¹⁰ The furniture should be kept/secured after close of business in such manner to prevent use.

different dining groups. **There must be no intermingling between groups.** Refer to <https://www.enterprisesg.gov.sg/covid-19/safe-distance> for the infographic on SMMs.

7. Ensure that customers do not sit or stand within 0.5 metres of the common boundary¹¹ between adjoining F&B premises unless there is a floor-to-ceiling, non-porous partition or wall separating the establishments.
8. Self-service buffet lines are not allowed¹².

Contact tracing

9. F&B establishments must implement SafeEntry via TraceTogether-only SafeEntry (TT-only SE) for dine-in customers and visitors¹³.
10. The SafeEntry (Business) App and the SafeEntry Gateway (SEGW) Box can be used with both the TraceTogether App and Token for this purpose. However, the SEGW Box cannot be used for VDS and manual checks will still need to be done should customers check-in using this method.
11. F&B establishments should encourage customers to check out using SafeEntry to facilitate contact tracing efforts¹⁴. Refer to www.safeentry.gov.sg for more details on SafeEntry Check-in.

Queue management

12. F&B establishments should:
 - 12.1. Demarcate queue lines for ordering and collection of food.
 - 12.2. Ensure at least one-metre distance between customers.
 - 12.3. Set aside a waiting area for customers and food delivery personnel to pick-up their orders.
 - 12.4. Implement contactless pick-up where possible.
 - 12.5. Implement pre-ordering and pre-payment solutions, or self-checkouts and contactless payment methods.
13. Refer to the [Advisory for Delivery Businesses](#) for guidelines on delivery requirements.

Cleanliness and hygiene

14. Workers¹⁵ (including food delivery personnel) and customers must be masked at all times.
15. Common spaces and items, high-touch surfaces (e.g. counters, menus), interactive components (e.g. tablets, smart kiosks) as well as play areas must be cleaned and disinfected frequently.

¹¹ The common boundary can be demarcated by plants or other vegetation (potted or otherwise), a stanchion with a barrier rope or tape, a wire fence, a divider or furniture, or could refer to a common boundary (not demarcated in any way with any thing) in an outdoor dining space or a five-foot way or footpath.

¹² This also applies to catering companies, where they are not allowed to provide self-service buffet lines. Catering companies should also reference SMMs for MICE, Marriage Solemnisations and Wedding Receptions and work-related events where applicable.

¹³ All enterprises must require their workers and vendors to do SafeEntry check-in via TT-only SE.

¹⁴ Businesses with a higher throughput of visitors and places where people are likely to be in close proximity for prolonged periods with masks off will be eligible for SEGW Check-out Boxes. Refer to go.gov.sg/gateway-overview for latest details.

¹⁵ This refers to all workers who work under an Enterprise's direction, including part-time and full-time workers, third-party contracted workers, and all other workers who work on the premises, e.g. cleaners, contractors, subcontractors.

16. Workers must clean or sanitise their hands before handling food orders.
17. Communal amenities for self-service (e.g. drink dispensers and condiment stations) must not be used¹⁶. Cutlery and condiments should be individually packed and sealed.
18. Hand sanitisers should be made available at common touchpoints (e.g. entry/exit doors, cashiers).
19. Self-serve food sampling is not allowed.

Food lines served by workers¹⁷

20. Food must be covered to minimise contamination risk.
21. Customers must not serve themselves.
22. Clean plates must be used for each visit to the food line.
23. Workers must use utensils to handle food at all times. If the use of suitable utensils is not feasible, workers must wear clean gloves to handle the food. Appropriate hand hygiene practices must be observed. Refer to [SFA's website](#) for more information on hand hygiene in food handling.
24. Customers should not talk to each other or interact while waiting in line.
25. These SMMs are additional to the SMMs for work-related and MICE events. Please refer to the [Safe Business Events Framework](#) for details.

Ventilation and improving indoor air quality

26. Refer to the [Guidance Note](#) to improve ventilation and indoor air quality in buildings issued by the Building and Construction Authority (BCA), National Environment Agency (NEA) and Ministry of Health (MOH)¹⁸.

Communication to customers

27. Communicate the SMMs to customers clearly (e.g. through signages and deploying service personnel to explain them).

Workplace premises¹⁹/Back-of-house/Kitchen

28. All workers must adhere to measures as outlined in [MOM's Requirements for Safe Management Measures at the Workplace](#).
29. No worker should be deployed at more than one worksite as far as possible.

¹⁶ F&B establishments are allowed to place condiments and cutleries at their stall counters, as long as these are within sight of and managed directly by their workers.

¹⁷ Food lines are not permitted at weddings and funerals. For wedding receptions, F&B must be served to seated customers. F&B is not permitted at funerals, with the exception of individual bento boxes for family members of the deceased who keep vigil for the duration of the funeral wake.

¹⁸ This Guidance Note provides building owners and facilities managers with updated recommended measures to enhance ventilation and air quality in indoor spaces.

¹⁹ Refers to back-of-house operations involving workers, including at offices, warehouses and manufacturing facilities.

- 29.1. If cross-deployment cannot be avoided (e.g. due to the nature of the job), additional safeguards must be in place to ensure that there is no direct contact between the cross-deployed personnel.
- 29.2. Workers at premises that have been asked to close by MOH must not be redeployed to other worksites for the period of closure. Those who have been instructed to go for a swab must visit the designated Regional Screening Centre, “Swab and Send Home” (SASH) Public Health Preparedness Clinics or mobile swab sites for the COVID-19 test off. They should monitor their health closely and visit a doctor immediately if unwell.

Workforce vaccination

30. From 1 January 2022, only vaccinated workers or those who have recovered from COVID-19 within the last 270 days can return to the workplace. This includes workers who are partially vaccinated (i.e. at least 1 dose of vaccine).
31. Unvaccinated workers are not allowed to return to the workplace unless they have a valid negative Pre-Event Test at an MOH-approved COVID-19 test provider.

COVID-19 testing

32. All workers²⁰ at F&B establishments that provide dine-in services, as well as all last-mile food delivery personnel are to be tested once every 7 days²¹ (under Fast and Easy Test Rostered Routine Testing, or FET RRT), regardless of vaccination status²². More details are available at <https://enterprisesg.gov.sg/sector-testing>.

Protocol on handling COVID-19 cases

33. For management of potential contacts of positive COVID-19 cases at the workplace, refer to <https://www.mom.gov.sg/covid-19/requirements-for-safe-management-measures>.
34. For protocol on disinfection for premises visited by positive COVID-19 cases, refer to [NEA's advisory](#).
35. Refer to <https://www.gobusiness.gov.sg/covid-faqs/> for other frequently asked questions.

Events at F&B establishments

36. F&B establishments may serve as venues for marriage events²³ and/or work-related events by third parties and are required to comply with the SMMs for these events.
37. Work-related events (both non customer-facing and customer-facing) can be held within the workplace premises or third-party venues. Such events are however not permitted at public and common areas such as mall atriums, public transport nodes, HDB estates and common corridors. **Prevailing guidelines for the respective event venues will apply.**

²⁰ This refers to all workers who work under an enterprise's direction, including part-time and full-time workers, third-party contracted workers, and all other workers who work on the premises, e.g. cleaners, contractors, subcontractors.

²¹ Unvaccinated individuals working in settings with mandatory FET RRT have to undergo testing twice a week under the “Vaccinate or Regular Test” (VoRT) regime. This is being reviewed and more details will be announced in due course.

²² SFA has sent out notices to relevant F&B licensees required to conduct Fast and Easy Test Rostered Routine Testing (FET RRT) for their Workers. Only individuals who have recovered from a COVID-19 infection in the past 270 days or if the infection was more than 270 days, are fully vaccinated, can be exempted from the testing regime.

²³ Refer to the requirements at the [GoBusiness portal](#) for the SMMs on Marriage Solemnisations and Wedding Receptions.

37.1. **Non customer-facing events** (e.g. promotion/human resource event for workers):

- Meals should not be the main feature. Enterprises should avoid holding events over mealtimes. Food or drinks should only be served if they are incidental to the event (e.g. the meeting or conference extends over lunchtime). In addition, the food must be served in individual portions²⁴, and participants must be seated while consuming the food and drinks. Participants should put on their masks as soon as they have finished eating or drinking.
- If a F&B establishment organises an event in its premises that involves any participant who is not a worker of, or who does not regularly deliver goods or services to the F&B establishment, should meals be provided, then every participant must meet VDS requirements.
- If the F&B establishment is a venue for an event organised by a third party, should meals be provided, then every participant must meet VDS requirements.
- Such events are subject to a cap of 50 persons or less, depending on venue capacity and subject to safe distancing requirements of at least one-metre spacing between individuals.

37.2. **Customer-facing events** (e.g. product launches, outlet opening):

- Meals should not be the main feature. Event organisers should avoid holding events over mealtimes. Food or drinks should only be served if incidental to the work-related event (e.g. product launch extends over lunchtime).
- Food and drinks must be served in individual portions²⁵ and participants must be seated while consuming the food and drinks. There should be no intermingling between the groups. Participants should minimise the time that they are unmasked while eating and drinking.
- If meals are provided, then every participant must meet VDS requirements.
- Such events organised by F&B establishments within their own premises are subject to the maximum number of individuals that the venue may accommodate after safe distancing measures are adhered to.
- Events organised by external parties (where the F&B premise now functions as a third-party venue) are subject to a cap of 50 persons (excluding the F&B establishment's service workers) or less, depending on venue capacity and subject to safe distancing requirements.
- Event participants can be in groups of up to 5 persons if they are from the same household, otherwise, they should be in groups of up to 2 persons. There must be at least a one-metre distance between groups.

²⁴ Food served through staff-served food lines must also be served in individual portions.

²⁵ Food served through staff-served food lines must also be served in individual portions.
